How to read this report. Every claim shows its working — the combination that produces it, the reasoning, a confidence level, and (where it applies) a dated window and a practical step. Confidence mirrors agreement across the four systems: 4/4 very high 3/4 likely 2/4 tendency. Begin with *Verify the Past* — test the method against your own memory before you read a single forecast.

Methodology & the Four Systems

Your report is computed, not guessed. Planetary positions come from the Swiss Ephemeris, accurate to the arc-second, using the **Lahiri ayanamsha** for the Vedic layer and the **KP (Krishnamurti) ayanamsha** with Placidus cusps for the KP layer. Four classical systems each give an opinion, and the report's signature is showing you where they agree.

SYSTEM	ROLE	WHAT IT CONTRIBUTES
Vedic (Parashari)	Foundation	Houses, divisional charts (D9, D10), planetary dignity and the Vimshottari dasha cycle.
Krishnamurti Paddhati	Precision	Placidus cusps and the 249 sub-lord table answer each life question through its cusp sub-lord.
Jaimini	Soul karakas	The chara karakas (Ātmakāraka, Amatyakāraka, Darakāraka...) and Arudha pada — an independent read of self, career and partnership.
Hellenistic	Time-lords	Sect, annual profection and Firdaria — who rules the year and which planets are favoured by day or night birth.

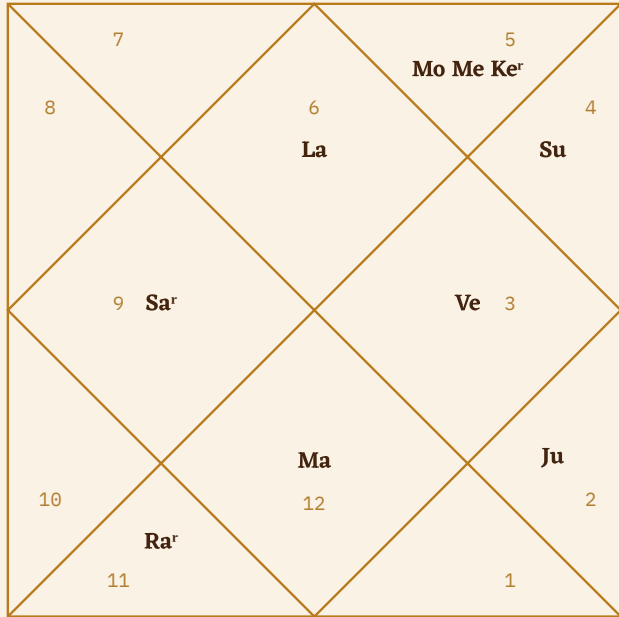

Agreement scoring. Each life-area conclusion earns +1 for every system that supports it, across all four. 4/4 reads as very high confidence, 3/4 as likely, 2/4 as a tendency, 1/4 as a soft mention. Timing — the Vimshottari dasha crossed with Jupiter and Saturn transits — then decides when a natal promise fires. This report never guarantees outcomes and never predicts death, certain divorce or medical events — it describes tendencies and timing, and leaves the living to you.

The Rāśi Chart (D1)

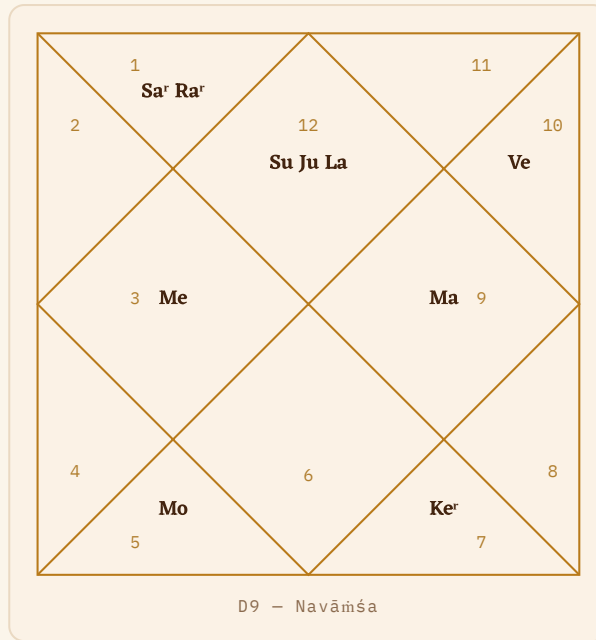

The Rāśi (D1) is the master chart — the body of your life. With Virgo rising, the whole chart is read from that lagna. The houses count anticlockwise from house 1 at top-centre, and each planet's house placement (shown in the table on the previous page) tells you which department of life it most shapes.

This is the chart every other layer refines. Where it is strong, life flows; where planets cluster, energy concentrates — here, for instance, the 10th house of career is occupied by Venus.

The Navāṁśa (D9)

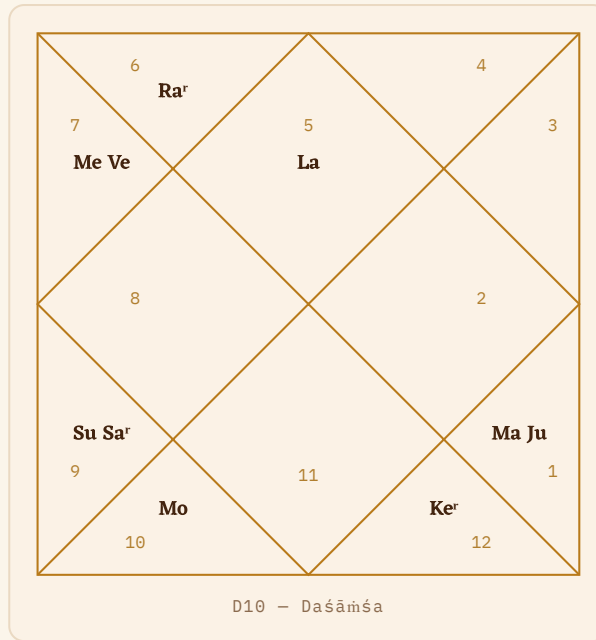

The Navāṁśa (D9) is the chart of marriage, dharma and inner strength — the soul behind the D1's body. A planet weak in D1 but strong in D9 (vargottama or well-placed) often delivers more than it first promises, especially in the second half of life and in partnership.

Read your 7th house here for the deeper texture of marriage; with Mars influencing the 7th in D1, the D9 shows how that partnership matures.

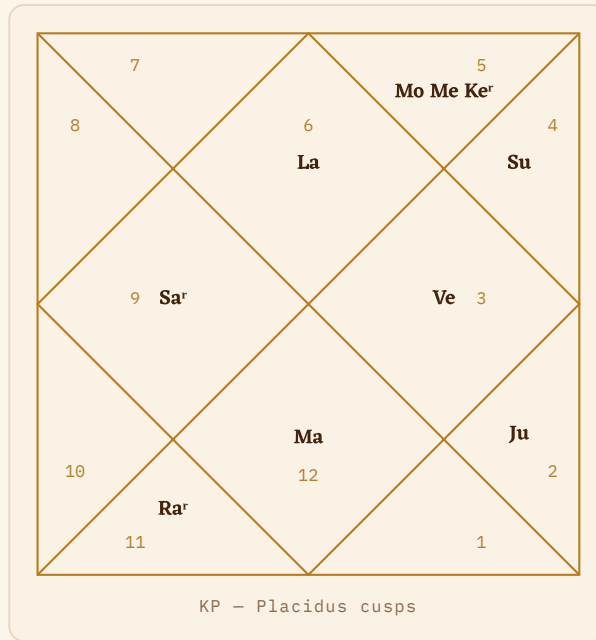

The Daśāṁśa (D10)

The Daśāṁśa (D10) magnifies the 10th-house story — career, profession, status and public role. It is the divisional chart professional astrologers lean on for vocation. The sign rising here and the planets around its 10th house describe the field and flavour of your work.

Cross-read this with the KP 10th cusp sub-lord and the career chapter: where the D10, KP and Jaimini Amatyakaraka agree, the vocational signal is strongest.

The KP Cusp Chart

The KP cusp chart uses Placidus houses and the Krishnamurti ayanamsha. Its power is precision: every life question is answered not by the whole house but by the single sub-lord on that house's cusp, and by the houses that sub-lord signifies.

This is the layer that turns 'good for career' into a definite yes, no or 'with effort'. The house-by-house table and the life-area chapters draw their KP verdicts from exactly this chart.

♦ Executive Summary — Your Report at a Glance

Aarav, here is your whole report in one breath. You are a Virgo rising — analytical, precise and service-minded — with your Moon in Leo, which is how you feel underneath. Right now you are living through your Mars-Venus daśā, a chapter with its own particular weather. Everything below is worked out from your real birth chart and shown with its reasoning — nothing here is guessed. But before you trust it with your future, test it against your past.

Right now (Jan 2026–Mar 2027, Mars-Venus): an overall positive period — career strongly positive, wealth positive, marriage positive, health mixed.

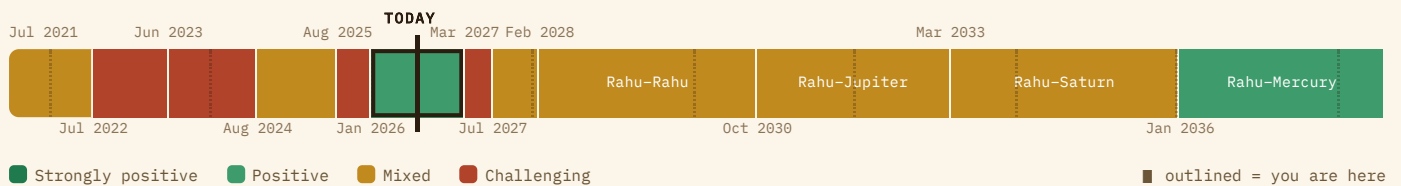

Your strongest period ahead is Mars-Venus (Jan 2026–Mar 2027) — positive overall. Plan your most important moves for this stretch.

The period asking for most care is Mars-Sun (Mar 2027–Jul 2027) — challenging. Consolidate rather than expand then.

Where two systems agree (a tendency): wealth.

Begin, though, with the Life Periods chapter — and test the engine's reading of your past against your own memory before you trust it with your future.

You meet the world as a Virgo person — analytical, precise and service-minded. That is the first impression you leave, the 'you' people see before they really know you. Underneath, your Moon in Leo is how you actually feel and process life — confident, dignified and naturally visible — and it can be quite different from that outer surface. Your Sun in Cancer is the person you are quietly growing into: nurturing, intuitive and protective. In plain terms: the world sees one side of you and you feel another — you are at your strongest when you honour both, instead of hiding either.

Sun sits in Cancer in your 11th house, comfortably placed — neither especially strong nor weak, colouring your sense of self, authority and vitality with the house of gains, income, networks and fulfilled desires. Moon sits in Leo in your 12th house, comfortably placed — neither especially strong nor weak, colouring your mind, emotions and inner life with the house of expenditure, foreign lands, retreat and release. Mars sits in Pisces in your 7th house, comfortably placed — neither especially strong nor weak, colouring drive, courage and the way you assert yourself with the house of marriage, partnership and one-to-one dealings. Mercury sits in Leo in your 12th house, comfortably placed — neither especially strong nor weak, colouring intellect, communication and commerce with the house of expenditure, foreign lands, retreat and release. Jupiter sits in Taurus in your 9th house, comfortably placed — neither especially strong nor weak, colouring wisdom, growth, fortune and guidance with the house of fortune, higher learning, dharma and the father. Venus sits in Gemini in your 10th house, comfortably placed — neither especially strong nor weak, colouring love, comfort, beauty and partnership with the house of career, status, public role and authority. Saturn sits in Sagittarius in your 4th house, comfortably placed — neither especially strong nor weak, colouring discipline, responsibility, delays and durability with the house of home, mother, property and emotional security (retrograde, turning its energy inward).

In Jaimini terms your **Ātmakāraka** (the soul's significator) is Sun, the planet carrying your deepest agenda this life. Your Hellenistic **sect** is a day birth, so Sun leads the chart and its time-lords weigh most. Taken together — lagna, Moon, soul-karaka and sect — they describe a person whose strength is best expressed through steadiness and self-knowledge rather than imitation.

✦ Yogas & Special Combinations

Yogas are special planetary combinations that act like standing themes in your chart - some lift, some test. Below are the classical yogas your exact placements actually form — **and when each one activates**, since a yoga only delivers during the daśā of the planets that build it.

Gajakesari Yoga (strong). Jupiter sits in an angle from the Moon, granting intelligence, good reputation, lasting respect and the support of well-placed people. **Activates:** activates in your **Jupiter** mahādaśā (Feb 2046 - Feb 2062), peaking in **Jupiter-Moon** (Jun 2057 - Oct 2058) when both its planets run together.

Kemadruma Dosha (caution). No planets flank the Moon (2nd/12th from it), which can bring emotional isolation or instability - softened by a strong Moon, benefic aspects, or planets in angles from the Moon.

Yogas describe potential; the daśā and transit clock decides when that potential ripens into events — so the dates above tell you the chapters of life when each strength is most yours to use.

Each planet is a living function in your chart — a way energy moves through you. Below, every graha is read by its sign (which flavours how it acts), its dignity (how strong or strained it is), its house (the area of life it most affects) and its functional nature for your ascendant (whether it tends to help or to test). Read together, they compose the orchestra of your nature.

● **Sun** in Cancer, 11th house — comfortably placed — neither especially strong nor weak. It governs your sense of self, authority and vitality, here focused on gains, income, networks and fulfilled desires. For your Virgo rising it is one of the tougher planets, asking for conscious handling. **What this means for you:** it shapes how you show up as yourself — your confidence, authority and need for recognition. One thing to do: step into visible responsibility instead of waiting to be chosen.

● **Moon** in Leo, 12th house — comfortably placed — neither especially strong nor weak. It governs your mind, emotions and inner life, here focused on expenditure, foreign lands, retreat and release. For your Virgo rising it is one of the tougher planets, asking for conscious handling. **What this means for you:** it shapes your emotional needs, your sense of safety, and how you nurture and are nurtured. One thing to do: protect your sleep and peace — you perform best when your mind is calm.

● **Mars** in Pisces, 7th house — comfortably placed — neither especially strong nor weak. It governs drive, courage and the way you assert yourself, here focused on marriage, partnership and one-to-one dealings. For your Virgo rising it is one of the tougher planets, asking for conscious handling. **What this means for you:** it shapes your energy, courage and how you go after what you want. One thing to do: aim your drive at one focused goal rather than scattering it.

● **Mercury** in Leo, 12th house — comfortably placed — neither especially strong nor weak. It governs intellect, communication and commerce, here focused on expenditure, foreign lands, retreat and release. For your Virgo rising it is a naturally helpful planet. **What this means for you:** it shapes how you think, speak, learn and handle money and business. One thing to do: put your ideas into clear words and numbers — communication is your edge.

● **Jupiter** in Taurus, 9th house — comfortably placed — neither especially strong nor weak. It governs wisdom, growth, fortune and guidance, here focused on fortune, higher learning, dharma and the father. For your Virgo rising it is one of the tougher planets, asking for conscious handling. **What this means for you:** it shapes your growth, luck, faith and the mentors and openings that find you. One thing to do: keep learning and stay generous — your fortune grows through both.

● **Venus** in Gemini, 10th house — comfortably placed — neither especially strong nor weak. It governs love, comfort, beauty and partnership, here focused on career, status, public role and authority. For your Virgo rising it is a naturally helpful planet. **What this means for you:** it shapes your relationships, taste, comfort and how you attract and enjoy life. One thing to do: invest real time in the people and beauty that genuinely matter to you.

● **Saturn** in Sagittarius, 4th house – comfortably placed – neither especially strong nor weak. It governs discipline, responsibility, delays and durability, here focused on home, mother, property and emotional security. For your Virgo rising it is fairly neutral. It is retrograde, drawing its lessons inward and asking for review rather than rushed action. **What this means for you:** it shapes your discipline, patience and the responsibilities that mature you. One thing to do: be reliable and play the long game – Saturn pays slowly but fully.

● **Rahu** in Aquarius, 6th house – operating through the karmic axis of the lunar nodes. It governs ambition, obsession and unconventional pursuits, here focused on health, work, service, debts and competition. For your Virgo rising it is a shadow planet, judged by placement and the lord of its sign. It is retrograde, drawing its lessons inward and asking for review rather than rushed action.

● **Ketu** in Leo, 12th house – operating through the karmic axis of the lunar nodes. It governs detachment, intuition and matters left behind, here focused on expenditure, foreign lands, retreat and release. For your Virgo rising it is a shadow planet, judged by placement and the lord of its sign. It is retrograde, drawing its lessons inward and asking for review rather than rushed action.

— Planet combinations (conjunctions)

When two or more planets sit in the same house they blend their natures – amplifying, colouring and sometimes complicating one another. These are the combinations in your chart and what they tend to mean for you.

● **Moon, Mercury and Ketu together in your 12th house** (expenditure, foreign lands, retreat and release). **Moon + Mercury** – an emotionally intelligent, quick mind – you think and speak with feeling; good for communication and trade. **Moon + Ketu** – an intuitive, detached, inward emotional nature – spiritually sensitive; grounding habits help. **Mercury + Ketu** – an incisive, intuitive mind drawn to the hidden – good for research and analysis, though decisions can waver.

— Planetary aspects (drishti)

In Vedic astrology a planet also acts *at a distance* – its drishti (gaze) falls on other planets and houses, colouring them without sitting there. Every planet aspects the point opposite it; Mars, Jupiter and Saturn cast extra aspects. Here is whose gaze most shapes your chart.

● **Your Lagna** (self, body and overall direction) is aspected by **Mars** (energy, drive and some friction or haste), **Jupiter** (grace, growth, wisdom and protection), **Saturn** (discipline, delay, seriousness and hard-earned maturity).

● **Your Moon** (your mind, emotions and inner life) is aspected by **Rahu** (amplification, ambition and an unconventional pull). Read Moon's results with that influence blended in.

● **Your Mercury** (intellect, communication and commerce) is aspected by **Rahu** (amplification, ambition and an unconventional pull). Read Mercury's results with that influence blended in.

● **Your Venus** (love, comfort, beauty and partnership) is aspected by **Mars** (energy, drive and some friction or haste), **Saturn** (discipline, delay, seriousness and hard-earned maturity). Read Venus's results with that influence blended in.

● **Your Saturn** (discipline, responsibility, delays and durability) is aspected by **Venus** (harmony, charm, comfort and relationship). Read Saturn's results with that influence blended in.

House-by-House Analysis

The twelve houses (bhāvas) are the stage on which the planets act – each one a department of life. The table alongside reads every house by the sign on its cusp, that sign's ruling planet, any planets sitting inside it, and the KP cusp sub-lord that delivers the final yes-or-no verdict for that house's questions.

When a house's lord is strong and well-placed, that department of life flows; when planets occupy a house, they bring their own colour to its affairs; and in KP, it is ultimately the cusp sub-lord – and the houses it signifies – that decides whether the matter fructifies. Use this as the structural map behind the life-area chapters that follow.

The Vimshottari Daśā Cycle

The Vimshottari daśā is the master clock of Vedic prediction: a 120-year cycle in which each planet rules a span of years, in a fixed sequence set by the Moon's nakshatra at your birth. Within each major period (mahādaśā) run nine sub-periods (antardaśā), and it is the interplay of the two that colours any stretch of life. The full sequence of your major periods appears in the table alongside.

You are currently in your Mars mahādaśā (2021-02-07 to 2028-02-08). Mars governs drive, courage and the way you assert yourself, so this is the broad theme coloring roughly two decades of your life. The sub-period table shows how that theme is modulated season by season as each antardaśā lord takes its turn.

Read this section together with the month-by-month tables later: the daśā tells you which planet holds the pen, while the transits tell you when its promises are most able to come due.

Verify the Past — Does Your Chart Match Your Life?

Before we forecast your future, check us on your **past** — the real test of any astrologer. Below, every area of life is dated the very same way the forecast ahead is: fusing three independent clocks — your **daśā** (what was ripe), the slow **Jupiter/Saturn season**, and the fast **Mars/Sun trigger** that pinned the month. After each window we ask **“Did it happen?”** — read it against your memory. **If these land, the forecast later — built identically — has earned your trust.** One honest note: we date the **strongest currents, not every ripple** — a real event that falls outside these windows fired from a subtler combination than a written report tracks, and says nothing against the ones named here.

*How to read each answer: the smaller indented lines are the individual clocks — transit, daśā, aspect, trigger — each dated and checkable on its own. A ● marks a window where two or more independent clocks agree — weigh those most; a ○ is a single-clock signal, lighter and honestly labelled so. A strong reading lands **7–8 of 10** — astrology reads the currents, not every wave.*

— “When will marriage or a committed partnership come?”

- **The Window.** Your strongest *meeting* windows were **Dec 2008 – Dec 2009** and **May 2010 – May 2011** — when Jupiter transited your 5th (romance) and 7th (partnership) (*Aṣṭakavarga 5/8, strong*), peaking around **Mar 2009** (Sun crossed it, in your Venus sub-period), widening the circle the right person tends to come from. **Did it happen?**
- **The Probability.** Your marriage signifiers (Jupiter, Saturn and Venus) ran together during **Feb 2007 – Nov 2008**, **Feb 2010 – Feb 2011**, **Jan 2014 – Dec 2016**, **Dec 2018 – Aug 2020**, **Jul 2022 – Aug 2024** and **Jan 2026 – Jul 2026** — the sub-periods that most supported a lasting commitment. (*Jupiter and Venus are strong in your D9 marriage chart, confirming the promise*) **Did it happen?**
- **Also.** Jupiter aspected your 7th house from your 3rd during **Oct 2018 – Nov 2019** — the classic marriage gaze, a window that may have brought marriage, engagement or a serious commitment. **Did it happen?**
- **Also.** Jupiter aspected your 7th house from your 11th during **Oct 2025 – Jul 2026** — the classic marriage gaze, a window that may have brought marriage, engagement or a serious commitment. **Did it happen?**
- **Direct trigger.** Around **Jan 2017 – Nov 2020**, Jupiter and Saturn transited Sagittarius, landing on your natal Saturn there — a strong delivery window for marriage, engagement or a serious commitment. **Did it happen?**
- **Exact trigger.** Jupiter crossed your natal **Saturn** to the exact degree around **17 Nov 2019** — the precise weeks when marriage, engagement or a serious commitment most tends to deliver. **Did it happen?**
- **Exact trigger.** Jupiter crossed your natal **Venus** to the exact degree around **09 Jul 2025** — the precise weeks when marriage, engagement or a serious commitment most tends to deliver. **Did it happen?**

Your partner. Your Darakāraka (spouse signifier) is **Saturn** — you are naturally drawn to someone mature, steady, responsible and hard-working — sometimes older or more serious.

— “Will I have children — and what will they be like?”

- **The Window.** Dec 2008 – Dec 2009 and Mar 2020 – Nov 2021 – Jupiter, the great karaka of children, transited your 5th house (*Aṣṭakavarga 4/8, moderate*), peaking around Jan 2009 (Sun crossed it, in your Ketu sub-period). For those trying to conceive this is the highest-probability window; for others it shows a surge of creativity and joy. A child conceived then would arrive about nine months later – around Aug 2009 – Oct 2010 and Nov 2020 – Sep 2022. Did it happen?

- **The Probability.** Your children significators (Jupiter and Saturn) ran together during Aug 2008 – Nov 2008, Jan 2014 – Dec 2016 and Jul 2022 – Aug 2024 – the sub-periods that most supported children or pregnancy news. Did it happen?

- **Also.** Jupiter aspected your 5th house from your 1st during Aug 2016 – Sep 2017 – the classic childbirth gaze, a window that may have brought children or pregnancy news. Did it happen?

- **Also.** Jupiter aspected your 5th house from your 9th during May 2024 – May 2025 – the classic childbirth gaze, a window that may have brought children or pregnancy news. Did it happen?

- **Also.** Saturn aspected your 5th house from your 3rd during Nov 2014 – Oct 2017 (its aspect works more slowly) – a window that may have brought children or pregnancy news, a romance, success in study or exams, or a creative or well-judged speculative win. Did it happen?

- **Direct trigger.** Around Jan 2017 – Nov 2020, Jupiter and Saturn transited Sagittarius, landing on your natal Saturn there – a strong delivery window for children or pregnancy news. Did it happen?

- **Exact trigger.** Jupiter crossed your natal Saturn to the exact degree around 17 Nov 2019 – the precise weeks when children or pregnancy news most tends to deliver. Did it happen?

- **Exact trigger.** Jupiter crossed your natal Jupiter to the exact degree around 12 Jun 2024 – the precise weeks when children or pregnancy news most tends to deliver. Did it happen?

Reading births. Every window above marks **conception** and the fertile stretch – a child arrives about **nine months later**. So when checking against a real birth, match these windows to the date roughly nine months *before* your child was born.

What kind. Your Putrakāraka is **Jupiter** and your 5th lord Saturn, pointing to children who are wise, kind and fortunate – naturally 'lucky' children; your 5th house asks for extra care with children's health and schooling.

Both charts. Children show in **both** parents' charts – often most clearly in the mother's, whose 5th house and daśā time pregnancy and delivery – so read this alongside your partner's report; a window in either chart counts.

— “What career suits me, and when should I make a move?”

Your direction. Venus sits right in your 10th house of career – the loudest voice in any chart – pointing to arts, design, entertainment, fashion, luxury, hospitality or relationship-based work.

The blend. Behind that, your Amatyakāraka is **Mars** (engineering, manufacturing, construction, defence/police, sport, surgery or real estate) and your 10th lord is **Mercury** (IT and software, data and

analytics, product, writing/media, accounting or commerce/trading) – flavours your main line of work can draw on.

- **The Window.** **May 2013 – Jun 2014** and **May 2025 – Jun 2026** – your strongest window for a step up, when Jupiter transited your 10th house of career (*Aṣṭakavarga 5/8, strong · well-placed from your Moon too*), peaking around **Jun 2013** (Sun crossed it, in your Ketu sub-period), favouring a promotion, a bigger role or a well-timed switch – though your daśā scored these months *Challenging* for this area (see your Life Periods), so it more likely brought struggle or a hard lesson than a clean gain. **Did it happen?**

What it means. Heavy 4th-house activation points to a life with more movement than most – new cities, new homes, or spells spent away from your roots.

— “What should I watch in my health, and when?”

Where to focus. Your 6th house of health falls in Aquarius, ruling **the calves, ankles and circulation**; its lord **Saturn** governs the bones, joints, teeth and slow, chronic strain. Its lord Saturn sits in Sagittarius, which draws in the hips, thighs and liver. A focus for prevention and check-ups, never a diagnosis.

Specifically flagged. Your chart also singles out your **eyes and vision** – malefics weigh on your 2nd/12th houses and the Sun/Moon (the eye signifiers), so keep up regular eye check-ups.

- **The Window.** Around **Apr 2022 – Mar 2025**, Saturn pressed your health houses – a stretch that asked for extra rest, steadier routines and not pushing through fatigue. **Did it happen?**

— “When was your hardest stretch — and is it behind you?”

Every chart has a winter – the years that test you most. We name yours not to alarm you but to prove this reading is about **your** life: if the dates below match a genuinely heavy patch, trust everything that follows.

The pressure years. The sub-periods of your 8th and 12th lords (Mars and Sun) ran during **Sep 2020 – Feb 2021** and **Feb 2021 – Jun 2021** – stretches that often bring upheaval, a loss, or a forced change of direction. **Did it happen?**

And then it lifts. These phases *pass* – Saturn always moves on, and what it takes it tends to repay as maturity, depth and staying power. The forecast ahead is where that hard-won groundwork starts to pay off.

Your Life Periods — The Honest Weather of Each Phase

This is the heart of your report — and the part to read with your own memory open. Your life unfolds in daśā periods, each ruled by a planet whose nature, placement in your chart and transits at the time decide the weather of those years. Below, every period in your ten-year window is read honestly: what it asks of you, what it offers, and a clear verdict for each of the four life areas — with the reasoning shown, never hidden.

Start with the past periods. If the engine's reading of years you have already lived rings true — the pressures, the openings, the turns — then you can trust its reading of the years still ahead. We do not claim to know what happened to you; we describe what each period indicates, and invite you to check it against your life. A green verdict is a tailwind; a challenging one is not doom but a call for patience and care.

— Mark your calendar — the few dates that matter

Of all the sky's movements in the decade ahead, these are the handful that actually touch **your** chart. Note them, and take the simple precaution beside each — ignore the rest of the noise:

- **Aug 2026 — Solar eclipse on your vitality & confidence (Sun):** a sudden new start or reset around income and gains is possible — stay flexible and don't force big decisions.
- **Sep 2033 — Solar eclipse on your whole self (Lagna):** a sudden new start or reset around yourself and your health is possible — stay flexible and don't force big decisions.
- **Sep 2035 — Solar eclipse on your emotional core (Moon):** a sudden new start or reset around expenses or letting go is possible — stay flexible and don't force big decisions.
- **Feb 2036 — Lunar eclipse on your vitality & confidence (Sun):** an emotional release or ending around income and gains — protect your rest and don't overreact.
- **Mercury retrograde (routine, about 3× a year — next: Jun-Jul 2026; Oct-Nov 2026; Feb-Mar 2027):** around these weeks double-check messages, travel and payments, and avoid signing new contracts or buying gadgets.

Health — take added care this period. Take added care of your physical risk and accidents (haste, travel, sport, sharp objects) and stamina and resistance to illness this period — keep steady routines, be a little more careful with travel and physical risk, and don't push through symptoms. *Why this flag: a nodal Rahu sub-period can bring sudden, unexpected events; and the ruler of your 6th/8th house of illness is active.*

From Jul 2021 to Jul 2022 you moved through the Mars-Rahu period — with Mars as the broad backdrop and Rahu as the planet actually running these years. For your Virgo rising, Rahu is a karmic shadow planet, which sets the tone. The real Jupiter and Saturn movements through these years are dated below. On balance this reads as a mixed period.

- **Rahu** (the planet running this period) is a shadow planet in the 6th house (a growth (upachaya) house, where nodes do well), its dispositor Saturn being a shadow planet, read by where it sits; it rules no house (a node) and sits in your 6th house.

For your Virgo rising, Mercury is a naturally helpful planet for you, which sets the tone. The real Jupiter and Saturn movements through these years are dated below. Saturn's Sade Sati is active across much of this period – a maturing pressure to respect. On balance this reads as a positive period.

- **Rahu** (the broad backdrop) is a shadow planet in the 6th house (a growth (upachaya) house, where nodes do well), its dispositor Saturn being a shadow planet, read by where it sits; it rules no house (a node) and sits in your 6th house.
- **Mercury** (the planet running this period) is a naturally helpful planet for you, in a friendly sign (supported) in Leo and combust – sitting so close to the Sun that its results, though real, are dimmed; it rules house(s) 1 and 10 and sits in your 12th house, sharing that house with Moon and Ketu (a testing influence).

♦ What this period could bring

Mercury runs this period from your 12th house of expenses, foreign lands & release, so that is the main stage. The dated turns most worth watching:

- **Jan 2036 – Apr 2036:** a favourable window for change, shared money & depth – an inheritance, insurance or settlement, an unexpected gain, or a transformative research, healing or occult turn.
- **Apr 2036 – Apr 2037:** a favourable window for fortune, travel, study & father – long-distance or foreign travel, higher study, a mentor's help, a lift in fortune, or your father's support.
- **Aug 2036 – Aug 2038:** a maturing, testing phase around expenses, foreign lands & release – rising expenses, a loss or parting, drained sleep or energy, or a foreign or hospital matter to manage. Your period's ruling planets point to this house too, which makes it more likely.
- **Apr 2037 – Sep 2037:** a favourable window for career, status & authority – a promotion, a new or bigger role, public recognition, or a clear rise in professional standing. Your period's ruling planets point to this house too, which makes it more likely.
- **Sep 2037 – Jan 2038:** a favourable window for income, gains & networks – a jump in income, a sizeable gain, a powerful new network, or a long-held wish finally fulfilled – though it may take real effort or come with new responsibility. Your period's ruling planets point to this house too, which makes it more likely.

These are possibilities the timing favours – windows to work with, not fixed events. Read them against your life and use the dates.

Career

Strongly positive

- Rahu, the background influence, supports work, health & rivals (6th house) – a real help here.
- Mercury, the planet driving this period, brings in career & status (10th house) and gains & networks (11th house) – but also stirs expense & release (12th house), which you'll need to manage.
- Jupiter actually transits your 10th house for part of this period, blessing career & status.

Wealth

Positive

- Rahu, the background influence, brings in fortune & dharma (9th house) – but also stirs work, health & rivals (6th house), which you'll need to manage.
- Jupiter actually transits your 11th house for part of this period, blessing gains & networks.

Marriage

Mixed

- Rahu, the background influence, activates work, health & rivals (6th house) and marriage & partnership (7th house) – but as a natural malefic on your marriage axis it tends to make this eventful and testing (friction, delays or turbulence) rather than smooth, so handle it with patience.

Health

Mixed

- Rahu, the background influence, activates work, health & rivals (6th house) – but as a natural malefic on your health & vitality it tends to put extra load on your stamina (a phase for rest, routine and care) rather than a clean boost, so pace yourself.

- Mercury, the planet driving this period, brings in self & vitality (1st house) and gains & networks (11th house) – but also stirs expense & release (12th house), which you'll need to manage.

Health. Keep your healthy routines steady this period – nothing alarming, just sensible upkeep. *Why this flag: Saturn's Sade Sati weighs on stamina and mood.*

Guidance. A supportive stretch. Move steadily on your priorities, especially in the areas marked positive below – momentum compounds here. What to do here – in Jan 2036–Aug 2038, put your energy into career – it is the strongest thread of this period.

◆ Your Key Questions, Answered — Precision Forecast

Now the forecast ahead — the very method you just checked against your past, pointed forward. Each answer keeps one shape: **The Window** (a slow planet moving through the house), **The Probability** (the daśā of its significators), and **The Action** — every date fused from three clocks: your daśā, the slow Jupiter/Saturn season, and the fast Mars/Sun trigger that pins the month. A note on reading it: astrology shows **tendencies, not certainties** — we never say you *will*, only how strongly your chart supports it, and when. And we date the **strongest currents, not every ripple**: a handful of windows that mean something, never a timeline so covered that every date counts as a hit.

*How to read each answer: it opens with **The short answer** — one fused verdict where our clocks converge — and the smaller indented lines beneath are the working behind it.*

— “When will marriage or a committed partnership come?”

The short answer. Your strongest window is **May 2032 – May 2032 – 4 of our clocks converge** here.

This year your annual profection activates your 2th house, so it is a socially active year — say yes to introductions.

The Window. Your strongest *meeting* windows are **Mar 2032 – Mar 2033** — when Jupiter transits your 5th (romance) and 7th (partnership) (*Aṣṭakavarga 5/8, strong*), likely peaking around **Mar 2034** when Sun crosses it, in your Venus sub-period, widening the circle the right person tends to come from.

The Probability. There is a modest chance of a lasting commitment during **Jul 2026 – Mar 2027** and **Oct 2030 – Mar 2033** — the sub-periods of your marriage significators (Jupiter, Saturn and Venus) carry the most support for long-term harmony. (*Jupiter and Venus are strong in your D9 marriage chart, confirming the promise*)

Also. Jupiter aspects your 7th house from your 11th during **Jul 2026 – Jun 2027** — the classic marriage gaze, a window for marriage, engagement or a serious commitment.

Also. Jupiter aspects your 7th house from your 1st during **Nov 2027 – Aug 2029** — the classic marriage gaze, a window for marriage, engagement or a serious commitment.

Also. Saturn aspects your 7th house from your 10th during **May 2032 – Jul 2034** (its aspect works more slowly) — a window for marriage, engagement, a serious relationship, a business partnership, or an important contract or deal.

Direct trigger. Around **Aug 2029 – May 2032**, Saturn transits Taurus, landing on your natal Jupiter there — a strong delivery window for marriage, engagement or a serious commitment.

Exact trigger. Saturn crosses your natal **Jupiter** to the exact degree around **04 Jul 2030**, then **15 Dec 2030**, then **22 Mar 2031** — the precise weeks when marriage, engagement or a serious commitment most tends to deliver — but as Saturn's slow, testing pass, it tends to come through pressure, delay and hard effort rather than handed easily.

Exact trigger. Saturn crosses your natal **Venus** to the exact degree around **27 Sep 2032**, then **10 Nov 2032**, then **01 Jun 2033** – the precise weeks when marriage, engagement or a serious commitment most tends to deliver – but as Saturn's slow, testing pass, it tends to come through pressure, delay and hard effort rather than handed easily.

Your partner. Your Darakāraka (spouse significator) is **Saturn** – you are naturally drawn to someone mature, steady, responsible and hard-working – sometimes older or more serious.

The Action. Put yourself in new circles during the meeting windows and don't force it outside them. Around **Jul 2026 – Feb 2028**, Saturn tests the 7th – slow down, communicate honestly and don't rush a commitment then.

— “Will I have children — and what will they be like?”

The short answer. Your strongest window is **Mar 2032 – May 2032 – 3 of our clocks converge** here.

The Window. **Mar 2032 – Mar 2033** – Jupiter, the great karaka of children, transits your 5th house (*Aṣṭakavarga 4/8, moderate*), likely peaking around **Jan 2033** when Sun crosses it, in your Rahu sub-period. For those trying to conceive this is the highest-probability window; for others it shows a surge of creativity and joy.

The Probability. There is a modest chance of children during **Oct 2030 – Mar 2033** – the sub-periods of your children significators (Jupiter and Saturn) carry the most support.

Also. Jupiter aspects your 5th house from your 11th during **Jul 2026 – Jun 2027** – the classic childbirth gaze, a window for children or pregnancy news.

Also. Jupiter aspects your 5th house from your 1st during **Nov 2027 – Aug 2029** – the classic childbirth gaze, a window for children or pregnancy news.

Also. Saturn aspects your 5th house from your 11th during **Jul 2034 – Aug 2036** (its aspect works more slowly) – a window for children or pregnancy news, a romance, success in study or exams, or a creative or well-judged speculative win.

Direct trigger. Around **Aug 2029 – May 2032**, Saturn transits Taurus, landing on your natal Jupiter there – a strong delivery window for children or pregnancy news.

Exact trigger. Saturn crosses your natal **Jupiter** to the exact degree around **04 Jul 2030**, then **15 Dec 2030**, then **22 Mar 2031** – the precise weeks when children or pregnancy news most tends to deliver – but as Saturn's slow, testing pass, it tends to come through pressure, delay and hard effort rather than handed easily.

Exact trigger. Jupiter crosses your natal **Saturn** to the exact degree around **08 Mar 2031**, then **25 May 2031**, then **30 Oct 2031** – the precise weeks when children or pregnancy news most tends to deliver.

What kind. Your Putrakāraka is **Jupiter** and your 5th lord Saturn, pointing to children who are wise, kind and fortunate – naturally 'lucky' children; your 5th house asks for extra care with children's health and schooling.

Both charts. Children show in **both** parents' charts – often most clearly in the mother's, whose 5th house and daśā time pregnancy and delivery – so read this alongside your partner's report; a window in either chart counts.

The Action. If planning a family, aim for the Jupiter-on-5th window and keep Jupiter strong through learning, mentoring and generosity.

— “Will my siblings be supportive?”

The read. Your 3rd house of siblings and courage is led by Mars, well-placed – indicating warm, supportive sibling bonds, and help that comes both from them and from your own initiative. Your Bhrātṛkāra is Moon.

The Action. Reach out first and don't keep score, especially in your Mars sub-periods – that is when these bonds are most workable.

— “What career suits me, and when should I make a move?”

The short answer. Your strongest window is **Oct 2026 – Feb 2027**, sharpest around **09 Oct 2026 – 2 of our clocks converge** here.

Your direction. Venus sits right in your 10th house of career – the loudest voice in any chart – pointing to **arts, design, entertainment, fashion, luxury, hospitality or relationship-based work**.

The blend. Behind that, your Amatyakāra is **Mars** (engineering, manufacturing, construction, defence/police, sport, surgery or real estate) and your 10th lord is **Mercury** (IT and software, data and analytics, product, writing/media, accounting or commerce/trading) – flavours your main line of work can draw on.

Job moves. There is a likely chance of a job change or advancement during **Oct 2026 – Feb 2027** and **May 2027 – Jul 2027** – the sub-periods of your career signifiers (Mars, Mercury, Saturn and Sun) carry the most support. *(Mars and Mercury are strong in your D10 career chart, confirming the promise)*

New-role window. Around **Mar 2033 – Mar 2034**, Jupiter transits your 6th house of work and service – a classic opening for a new job, role or responsibility.

Handle with care. Around **May 2032 – Jul 2034**, Saturn presses your work houses – not the time to quit abruptly; consolidate, deliver and let the pressure build your credibility.

Also. Jupiter aspects your 10th house from your 4th during **Feb 2031 – Oct 2032** – a window for a promotion, a new or bigger role, public recognition, or a clear rise in professional standing.

Direct trigger. Around **Oct 2026 – Jul 2028**, Jupiter transits Leo, landing on your natal Mercury there – a strong delivery window for a promotion, a bigger role or recognition.

Exact trigger. Saturn crosses your natal **Mars** to the exact degree around **09 Oct 2026**, then **08 Feb 2027** – the precise weeks when a promotion, a bigger role or recognition most tends to deliver – but as Saturn's slow, testing pass, it tends to come through pressure, delay and hard effort rather than handed easily.

Exact trigger. Jupiter crosses your natal **Sun** to the exact degree around **16 Oct 2026**, then **10 Feb 2027**, then **13 Jun 2027** — the precise weeks when a promotion, a bigger role or recognition most tends to deliver.

The Action. Point your next move toward the fields above and time the leap to a Jupiter window; around the Saturn windows, prepare and negotiate rather than quit.

— “Should I do business or stay in a job — and when?”

Business or a job? On the employed-vs-self-employed question your chart leans to **running your own thing**: your career lord sits in your 12th, so your work runs independently and away from big institutions. A salaried role can be a launchpad, but you're built to work for yourself.

Your field. Whichever path you take, your earning line is strongly **modern and unconventional** — technology, IT/software, AI and data, the internet, backend/infrastructure and cybersecurity, startups, or foreign/new-age fields, rather than a traditional trade — so think a venture in that kind of field, not the opposite. (*Business-vs-job is one of astrology's hardest calls — weigh this as a leaning, not a verdict.*)

The Window. There is a likely chance of a successful launch during **Jul 2026 – Oct 2026** and **Dec 2026 – Feb 2027** — the sub-periods of your enterprise signifiers (your 3rd, 7th and 10th lords with Rahu and Mercury — Jupiter, Mars, Mercury and Rahu) most support starting out.

Growth window. **Jan 2030 – Oct 2031** — Jupiter transits your houses of work and partnership, a supportive stretch to expand, raise money or add partners.

The Action. Build inside the launch window, keep six to twelve months of runway, and test small before you commit fully — the chart backs the timing, not recklessness.

— “When will my finances strengthen — a raise, a bonus, a gain?”

The short answer. Your strongest window is **Jan 2030 – Sep 2030**, sharpest around **04 Jul 2030** — **3 of our clocks converge** here — and the Jupiter-Saturn double transit backs it.

The Window. **Jul 2026 – Jun 2027** and **Dec 2028 – Sep 2030** — Jupiter transits your houses of income and savings (11th/2nd) (*Aṣṭakavarga 4/8, moderate*), likely peaking around **Jul 2026** when Sun crosses it, in your Rahu sub-period. There is a likely chance of a raise, bonus or new income stream, and it is the best time to ask.

The Probability. There is a likely chance of a financial gain during **Jul 2026 – Mar 2027** and **Aug 2027 – Jan 2028** — the sub-periods of your wealth signifiers (Jupiter, Moon and Venus) carry the most support.

Clearing debt. **Apr 2035 – Apr 2036** — Jupiter transits your 8th house of loans and shared money, a good stretch to restructure or clearing debt.

Stress-test. Around **Jul 2034 – Aug 2036**, Saturn tightens the 11th — a leaner patch for cash flow and big commitments.

Also. **Jupiter** aspects your 11th house from your 3rd during **Jan 2030 – Oct 2031** — a window for a jump in income, a sizeable gain, a powerful new network, or a long-held wish finally fulfilled.

Direct trigger. Around **Aug 2029 – May 2032**, Saturn transits Taurus, landing on your natal Jupiter there – a strong delivery window for a jump in income or a long-held wish fulfilled.

Exact trigger. Jupiter crosses your natal **Moon** to the exact degree around **11 Sep 2027** – the precise weeks when a jump in income or a long-held wish fulfilled most tends to deliver.

Exact trigger. Saturn crosses your natal **Venus** to the exact degree around **27 Sep 2032**, then **10 Nov 2032**, then **01 Jun 2033** – the precise weeks when a jump in income or a long-held wish fulfilled most tends to deliver – but as Saturn's slow, testing pass, it tends to come through pressure, delay and hard effort rather than handed easily.

The Action. Make your ask for a raise or new deal inside a Jupiter window – the chart backs the timing, but you have to initiate it.

— “Is this a good time to invest or trade the markets?”

The safe window. **Jul 2026 – Jun 2027** and **Mar 2032 – Mar 2033** – Jupiter transits your houses of gains and intelligence (11th/5th), the best stretch for steady, long-term investing and considered positions.

The high-risk window. (**Dec 2026 – Jun 2028**) Rahu on your 5th of speculation brings high-reward but volatile plays – you may win big or lose fast. Trade small and guarded here, never with money you can't afford to lose.

The Action. Favour SIPs and long-term holdings in the Jupiter window; keep any speculation tiny during the Rahu window.

— “Is there a good window to buy a home, vehicle or property?”

The short answer. Your strongest window is **May 2032 – May 2032** – 3 of our clocks converge here.

The Window. **Feb 2031 – Oct 2032** – Jupiter transits your 4th house of home, property and vehicles (*Aṣṭakavarga 5/8, strong · well-placed from your Moon too*), likely peaking around **Oct 2031** when Mars crosses it, in your Mercury sub-period, the most supportive stretch for a purchase or upgrade. There is a likely chance of a well-timed move here.

The Probability. There is a likely chance of a property or vehicle during **Jul 2026 – Mar 2027** and **Aug 2027 – Jan 2028** – the sub-periods of your home signifiers (Jupiter, Mars, Moon and Venus) carry the most support.

KP note. Your 4th-cusp sub-lord is **Jupiter** – the KP signal for how and when property comes to you.

Also. **Saturn** aspects your 4th house from your 10th during **May 2032 – Jul 2034** (its aspect works more slowly) – a window for a new home, property or vehicle, a move up in comfort, or happy domestic news.

Direct trigger. Around **Aug 2029 – May 2032**, Saturn transits Taurus, landing on your natal Jupiter there – a strong delivery window for a new home, vehicle or property.

Exact trigger. Saturn crosses your natal **Mars** to the exact degree around **09 Oct 2026**, then **08 Feb 2027** – the precise weeks when a new home, vehicle or property most tends to deliver – but as Saturn's slow, testing

pass, it tends to come through pressure, delay and hard effort rather than handed easily.

Exact trigger. Saturn crosses your natal **Venus** to the exact degree around **27 Sep 2032**, then **10 Nov 2032**, then **01 Jun 2033** — the precise weeks when a new home, vehicle or property most tends to deliver — but as Saturn's slow, testing pass, it tends to come through pressure, delay and hard effort rather than handed easily.

The Action. Buy inside a window, but vet every legal clearance carefully — Saturn's involvement in property rewards patience over haste.

— “Will I travel, work or settle abroad?”

Your signature. Rahu and your 9th/12th houses (long journeys and foreign lands) are linked in your chart — the classic marker for overseas study, work or relocation.

The Window. Mar 2027 – Jul 2027 and Aug 2042 – Jul 2043 — the sub-periods of your 12th lord most activate foreign opportunities and international work.

The Action. If an overseas offer arrives in that window and feels right, your chart supports it — just confirm the offer is solid before you commit.

— “What should I watch in my health, and when?”

Where to focus. Your 6th house of health falls in Aquarius, ruling **the calves, ankles and circulation**; its lord **Saturn** governs the bones, joints, teeth and slow, chronic strain. Its lord Saturn sits in Sagittarius, which draws in the hips, thighs and liver. A focus for prevention and check-ups, never a diagnosis.

Specifically flagged. Your chart also singles out your **eyes and vision** — malefics weigh on your 2nd/12th houses and the Sun/Moon (the eye signifiers), so keep up regular eye check-ups.

When to be watchful. Around **Oct 2026 – Dec 2026** and **May 2027 – Jul 2027** — the sub-periods of your 6th/8th/12th-house lords (Mars, Saturn and Sun) — give your health extra attention and keep up preventive check-ups. This flags care, never a diagnosis.

Rebuilding. Nov 2027 – Aug 2029 — Jupiter supports your vitality, the natural window to rebuild strength and steady your foundations.

The Action. Book preventive check-ups in the Saturn windows and keep steady routines — you are not destined to fall ill; your body is asking for care.

— “Am I in Sāḍe Sātī — and when does it end?”

Sāḍe Sātī — Saturn's seven-and-a-half-year passage over the 12th, 1st and 2nd signs from your Moon — is the most feared phrase in Indian astrology, and mostly misunderstood. It comes once every ~29½ years, and it is a **maturing** test: it strips what is flimsy and pays it back as resilience. Here is your dated answer.

No — you are clear. The next does not begin until **Jul 2034** — about **7 years of open road** on this front. Anyone who blames your present struggles on Sāḍe Sātī is reading the wrong chart.

— Your 3 cornerstone years in the decade ahead

Of every period ahead, these three carry the strongest overall support — the rest of the decade is preparation for them, so build your big moves around these:

Jan 2026 – Mar 2027 — Career foundation: your Mars-Venus period (Positive). make your boldest professional moves here.

Feb 2028 – Oct 2030 — Wealth building: your Rahu-Rahu period (Mixed). invest, earn and build assets here.

Jan 2036 – Aug 2038 — Relationship peak: your Rahu-Mercury period (Positive). commit to and deepen relationships here.

॥ Saturn, Discipline & Sade Sati

Saturn — the planet of time, discipline and earned reward — sits in Sagittarius in your 4th house, comfortably placed — neither especially strong nor weak. Its placement shows where life asks you for patience, structure and sustained effort, and where, in return, it builds things that last.

Sade Sati. Your ~7½-year Sade Sati lies ahead: Saturn moves through the 12th, 1st and 2nd signs from your natal Moon from Jul 2034 to Sep 2041. Its most intense stretch — Saturn passing directly over your Moon — falls Aug 2036 to Jul 2039. These dates are taken from Saturn's actual sidereal transit, including its retrograde re-entries.

Sade Sati is often feared, but it is better understood as a maturing pressure — a period that strips away what is not solid and rewards honest, disciplined effort. Keep commitments small and firm, tend your health and sleep, and avoid over-extending; those who meet it with steadiness usually emerge more grounded and capable.

Wherever Saturn is concerned, the remedy is character rather than ritual: reliability, service to elders and the patience to let results ripen.

This area is governed by your 10th house – career, status, public role and authority. In the KP system the deciding factor is a single point called the cusp sub-lord – here Jupiter – which links this area to home & peace (4th house), marriage & partnership (7th house), fortune & dharma (9th house), gains & networks (11th house) and expense & release (12th house). The KP verdict for this question is 'challenging – needs supportive periods'.

The natural significator for this area is Saturn, which in your chart sits in Sagittarius (comfortably placed – neither especially strong nor weak) in the 4th house. Its condition tints the whole area: a strong significator lets the house deliver its promise readily, while a strained one asks for patience and the right timing.

Four-system reading. Vedic: 10th-lord Mercury is friendly (43/100) and a naturally helpful planet for you. **KP:** cusp sub-lord Jupiter → 'challenging – needs supportive periods'. **Jaimini:** Amatyakaraka Mars (Friendly, 46/100) in your 7th. **Hellenistic:** no special sect or profection emphasis (day sect).

Cross-checking the four systems, agreement here is 1/4 – weak – one system supports. That is the natal promise; whether and when it delivers is decided by the periods, traced next.

Across your periods this area reads: Jul 2021-Jul 2022 positive; Jul 2022-Jun 2023 challenging; Jun 2023-Aug 2024 mixed; Aug 2024-Aug 2025 positive; Aug 2025-Jan 2026 mixed; Jan 2026-Mar 2027 strongly positive; Mar 2027-Jul 2027 mixed; Jul 2027-Feb 2028 mixed; Feb 2028-Oct 2030 strongly positive; Oct 2030-Mar 2033 mixed; Mar 2033-Jan 2036 mixed; Jan 2036-Aug 2038 strongly positive. The strongest window for career is the Mars-Venus (Jan 2026-Mar 2027) period (strongly positive); the one most asking for care is Mars-Jupiter (Jul 2022-Jun 2023) (challenging). Plan your important moves in career for the stronger periods, and protect rather than push during the harder ones.

Practical guidance: Offer respect to elders and mentors on Saturdays, and keep commitments meticulously – Saturn rewards reliability over brilliance.

Plan your important moves in wealth for the stronger periods, and protect rather than push during the harder ones.

Four-system reading. Vedic: 7th-lord Jupiter is enemy (37/100) and one of the tougher planets for you. **KP:** cusp sub-lord Venus → 'challenging – needs supportive periods'. **Jaimini:** Darakaraka Saturn (Neutral, 42/100) in your 4th. **Hellenistic:** its lord/significator is the benefic of sect (Jupiter).

Cross-checking the four systems, agreement here is 1/4 – weak – one system supports. That is the natal promise; whether and when it delivers is decided by the periods, traced next.

Across your periods this area reads: Jul 2021-Jul 2022 mixed; Jul 2022-Jun 2023 challenging; Jun 2023-Aug 2024 challenging; Aug 2024-Aug 2025 mixed; Aug 2025-Jan 2026 challenging; Jan 2026-Mar 2027 positive; Mar 2027-Jul 2027 challenging; Jul 2027-Feb 2028 mixed; Feb 2028-Oct 2030 mixed; Oct 2030-Mar 2033 mixed; Mar 2033-Jan 2036 challenging; Jan 2036-Aug 2038 mixed. The strongest window for marriage is the Mars-Venus (Jan 2026-Mar 2027) period (positive); the one most asking for care is Mars-Ketu (Aug 2025-Jan 2026) (challenging). Plan your important moves in marriage for the stronger periods, and protect rather than push during the harder ones.

Practical guidance: Cultivate patience and shared comfort on Fridays – Venus responds to harmony, art and unhurried affection.

Relationships have their own seasons. These windows hold whether you are seeking a partner or nurturing an existing bond – read them in your own context.

Your Venus – signifier of love and partnership – sits in Gemini (comfortably placed – neither especially strong nor weak) in your 10th house, colouring how you give and receive affection.

Favourable windows for marriage or deepening commitment:

- **Jan 2026–Mar 2027** (Mars–Venus, marriage positive): favourable for engagement, marriage or a meaningful deepening of the bond.

Periods asking for patience – better for steadiness than big decisions:

- **Mar 2027–Jul 2027** (Mars–Sun, marriage challenging): a time for communication and patience rather than ultimatums or major commitments.
- **Mar 2033–Jan 2036** (Rahu–Saturn, marriage challenging): a time for communication and patience rather than ultimatums or major commitments.

The chart sets the weather, not the choice – character and care decide the outcome of any season.

This area is governed by your 6th house — health, work, service, debts and competition. In the KP system the deciding factor is a single point called the cusp sub-lord — here Jupiter — which links this area to home & peace (4th house), marriage & partnership (7th house), fortune & dharma (9th house), gains & networks (11th house) and expense & release (12th house). The KP verdict for this question is 'mixed'.

The natural significator for this area is Mars, which in your chart sits in Pisces (comfortably placed — neither especially strong nor weak) in the 7th house. Its condition tints the whole area: a strong significator lets the house deliver its promise readily, while a strained one asks for patience and the right timing.

Four-system reading. Vedic: 6th-lord Saturn is neutral (42/100) and fairly neutral for you. **KP:** cusp sub-lord Jupiter → 'mixed'. **Jaimini:** Gnatikaraka Mercury (Friendly, 43/100) in your 12th (a difficult house). **Hellenistic:** no special sect or profection emphasis (day sect).

Cross-checking the four systems, agreement here is 0/4 — contraindicated — no system supports. That is the natal promise; whether and when it delivers is decided by the periods, traced next.

Across your periods this area reads: Jul 2021-Jul 2022 mixed; Jul 2022-Jun 2023 mixed; Jun 2023-Aug 2024 challenging; Aug 2024-Aug 2025 mixed; Aug 2025-Jan 2026 challenging; Jan 2026-Mar 2027 mixed; Mar 2027-Jul 2027 mixed; Jul 2027-Feb 2028 mixed; Feb 2028-Oct 2030 challenging; Oct 2030-Mar 2033 mixed; Mar 2033-Jan 2036 challenging; Jan 2036-Aug 2038 mixed. The strongest window for health is the Mars-Mercury (Aug 2024-Aug 2025) period (mixed); the one most asking for care is Rahu-Saturn (Mar 2033-Jan 2036) (challenging). Plan your important moves in health for the stronger periods, and protect rather than push during the harder ones.

A natal note. Your Mars in Pisces (comfortably placed — neither especially strong nor weak) is reasonably placed for vitality, giving you a generally resilient constitution to build healthy habits on.

Your current major period (Mahādaśā of Mars) gives these years a standing undertone of high physical energy, so haste and accident-awareness matter throughout.

Periods to take health seriously. Across this report the stretches that most ask for care are: Mars-Rahu (Jul 2021-Jul 2022) (take added care), Mars-Saturn (Jun 2023-Aug 2024) (be extra careful), Mars-Ketu (Aug 2025-Jan 2026) (be extra careful), Mars-Moon (Jul 2027-Feb 2028) (take added care), Rahu-Rahu (Feb 2028-Oct 2030) (be extra careful) and Rahu-Saturn (Mar 2033-Jan 2036) (be extra careful). In these windows the chart's protective factors are weaker — treat them as a cue for prevention (rest, check-ups, caution with travel and physical risk), never as a forecast of harm.

Practical guidance: Keep a steady daily rhythm of sleep, food and movement; the 6th house yields to routine far more than to intensity.

✓ Where the Systems Agree — Cross-System Verdicts

The signature of this report is honesty about agreement. Below, each major life area is scored by how many of the **four** systems — Vedic, KP, Jaimini and Hellenistic — support a favourable reading. The full table appears alongside this text.

In one line: your strongest area is **Wealth & Gains** (2 of 4 systems agree); the one most in need of patience is **Health & Resilience** (0 of 4). Put your energy where the systems agree, and meet the weaker area with steadiness rather than force.

• **Career & Profession:** Vedic ✓, KP –, Jaimini –, Hellenistic – → agreement 1/4 (weak — one system supports). The next favourable window opens Dec 2027.

• **Wealth & Gains:** Vedic –, KP ✓, Jaimini –, Hellenistic ✓ → agreement 2/4 (moderate — two systems agree). The next favourable window opens Dec 2027.

• **Marriage & Partnership:** Vedic –, KP –, Jaimini –, Hellenistic ✓ → agreement 1/4 (weak — one system supports). The next favourable window opens Dec 2027.

• **Health & Resilience:** Vedic –, KP –, Jaimini –, Hellenistic – → agreement 0/4 (contraindicated — no system supports). The next favourable window opens Aug 2028.

FOUR-SYSTEM VERDICT TABLE (VEDIC • KP • JAIMINI • HELLENISTIC)

Each ✓ is one system's independent yes for the natal promise; the prose above explains each. Timing then decides *when* it fires.

★ Planetary Strength & Dignity

Beyond a simple verdict of strong or weak, each planet here is scored on a 0-100 **strength index** - a transparent blend of its sign dignity (sthāna), directional strength (dig bala), natural rank (naisargika), motion and retrograde brightness (cheṣṭā), and a day/night term (kāla) – minus a combustion penalty where a planet sits so close to the Sun that its results dim (marked • **combust** in the table). It is an index, not a 60-point classical Śaḍbala, so it never overclaims precision.

In your chart **Sun** (70/100) is the most reliably strong planet, and **Jupiter** (37/100) the one that most needs conscious support. The table shows every planet's dignity and index.

PLANETARY STRENGTH INDEX (0-100)

PLANET	DIGNITY	STRENGTH INDEX
Sun	Friendly	70
Moon	Friendly	54
Mars	Friendly	46
Mercury	Friendly • combust	43
Jupiter	Enemy	37
Venus	Friendly	46
Saturn	Neutral	42
Rahu	Neutral	51
Ketu	Neutral	45

Jaimini astrology reads the chart through the **Chara Karakas** - the seven planets ranked by how far they have travelled into their sign. The highest becomes the **Ātmakāraka**, signifier of the soul's agenda this life; the lowest is the **Darakāraka**, signifier of the spouse.

Your **Ātmakāraka** is **Sun** - your soul's strongest desire works through its themes - and your **Darakāraka** is **Saturn**, colouring the partner you seek. Your **Arudha Lagna** - the image the world projects onto you, as distinct from who you are - falls in house 11.

CHARA KARAKAS — THE SOUL'S SIGNIFIATORS

KARAKA	PLANET	SIGNIFIES
Atmakaraka	Sun	the soul's deepest desire this life
Amatyakaraka	Mars	the mind, career and the soul's 'minister'
Bhratrikaraka	Moon	siblings, courage and self-effort
Matrikaraka	Venus	mother, home and emotional roots
Putrakaraka	Jupiter	children, creativity and intelligence
Gnatikaraka	Mercury	obstacles, discipline and health
Darakaraka	Saturn	spouse and partnership

Arudha Lagna. The image the world projects onto you falls in house 11 — how others perceive you, as distinct from who you are.

Hellenistic Time-Lords — Sect, Profection & Firdaria

The Hellenistic tradition adds time-lords the Vedic systems do not. The master condition is **sect**: you were born by **day**, so **Sun** is your sect light - the luminary that leads your chart and whose triplicity lords matter most.

Annual profection advances one house each year of life. This year your 2nd house (Libra) is activated, handing the year to **Venus** and spotlighting money, resources, possessions and self-worth. In the Persian **Firdaria** you are in the major period of **Moon** / Venus sub-period, an independent layer of timing that overlays the Vimshottari daśā.

HELLENISTIC TIME-LORDS

LAYER	READING
Sect	Day birth — sect light Sun
Annual profection	House 2 (Libra) · year-lord Venus — money, resources, possessions and self-worth
Firdaria	Moon / Venus sub-period
Triplicity (Water)	Ruling lord Venus (day Venus · night Mars · participating Moon)

✿ Your Remedies, Gemstone & Mantra

Your Cosmic Toolkit. Unlike a generic list, these are worked out from your own chart — the gemstone, mantras and day tied to your strongest supports. Treat them as supportive habits, not magic, and value sincerity over expense.

- Your **Emerald** is the stone of Mercury, your ascendant (Lagna) lord — set in gold, worn on the little finger of the right hand, first put on a Wednesday. It supports your overall vitality and direction. Choose a natural, untreated stone, and have it checked by a qualified astrologer before wearing.
- **Your mantras.** To steady yourself, chant *Om Braam Breem Braum Sah Budhaya Namah* (for Mercury, your ascendant lord). To align with the chapter you are living right now, chant *Om Kraam Kreem Kraum Sah Bhaumaya Namah* (for Mars, your current major-period lord). 108 times, unhurried, is the classical count.
- **Your power day is Wednesday** — the weekday of Mercury (your ascendant lord). Start important things on that day, and favour green in what you wear.

Beyond the gemstone and mantra above, the most reliable remedies are simply habits and attitudes that align you with the periods ahead — never fear-based prescriptions or purchases. Choose one or two that fit your life and keep it simple.

— Remedies by life area

- **Career:** Offer respect to elders and mentors on Saturdays, and keep commitments meticulously — Saturn rewards reliability over brilliance.
- **Wealth:** Honour Thursday as a day of gratitude and modest charity; Jupiter's grace on wealth grows through generosity, not hoarding.
- **Marriage:** Cultivate patience and shared comfort on Fridays — Venus responds to harmony, art and unhurried affection.
- **Health:** Keep a steady daily rhythm of sleep, food and movement; the 6th house yields to routine far more than to intensity.

— Remedies by planet

- **Sun:** Greet the sunrise and offer water to the Sun on Sundays; cultivate healthy authority — lead without dominating, and honour your father.
- **Moon:** Protect your sleep and your peace; spend time near water, and keep Monday gentle. A steady mind is the Moon's truest remedy.

- **Mars:** Channel energy into exercise and disciplined effort rather than conflict; serve siblings and the brave. Tuesdays suit decisive action.
- **Mercury:** Keep your word and your accounts clean; read, write and learn something on Wednesdays. Mercury rewards clarity and honesty.
- **Jupiter:** Honour teachers and keep one act of weekly charity on Thursdays; study something that expands you. Jupiter grows through generosity.
- **Venus:** Bring beauty, art and harmony into your week; treat partners with fairness and warmth on Fridays. Venus dislikes coarseness and excess.
- **Saturn:** Be reliable, punctual and patient; serve the elderly and the overlooked on Saturdays. Saturn rewards endurance, never shortcuts.
- **Rahu:** Avoid shortcuts and obsession; ground yourself with routine and honesty. Rahu's hunger is best met with disciplined, ethical ambition.
- **Ketu:** Make room for stillness, prayer or meditation; hold outcomes lightly. Ketu's gift is detachment and quiet, hard-won wisdom.

Above all, the most reliable remedy is to act inside the high-agreement windows and to rest, prepare and consolidate outside them. The chart describes the terrain; how you walk it remains yours.
